

## Slide projector for a community library to teach environmental and educational programs for local students.

Project Reference: 83

### ► How will this project help?

This library is managed by the local community and is used regularly by the local school children. The Library Management Committee have chosen to set up Awareness Programmes for the students that will cover education, the environment and development issues. In order to provide this service, the library needs the use of a slide projector to deliver the information in a cost effective and accessible format. They plan to run the educational slide shows once a week and hope that the addition of the slide projector will help attract students to the talks. Your support with this project will provide a valuable resource for the library and help educate students on a number of important issues that are affecting their community.

### ► Cost of Project

Costs are given in the local currency, Nepalese Rupees (NRS). This is because all items are bought locally in Nepal to reduce costs and to support the local economy.

#### **Cost breakdown**

1 slide projector = 28000 NRS  
 Transport and delivery cost = 1500 NRS.  
 Project Implementation costs = 3500 NRS  
 Local bank charges to receive funds = 350 NRS

Total cost of project in local currency =  
 33350 NRS

► **Total Cost of Project in Pounds =**  
**£277.92**

### ► Who needs help with this Project?

This is a community library in Dang that is used by students living in the local area

### ► Where is this project needed?

Dang, Nepal

### ► Nepal Factfile

- ◆ Population: 23.1 million
- ◆ Average annual income: US\$ 220
- ◆ Often described as the "country of villages" with over 80 % of the population living in over 40,000 villages, some of which are located in remote mountainous regions.
- ◆ Only 28% of the population have access to adequate sanitation
- ◆ Every year 35,000 children still lose their lives due to diarrhoea.
- ◆ 76% of adult females are illiterate

"The challenge is to provide the up and coming generation with the awareness, abilities and mental strength they need to take responsibility for their own lives, and to make their contribution to society. This is a true challenge for development." (UNESCO, Senegal Conference, July 2001)
